OBJECTIVE

I'm a full-stack developer dedicated to building clean, efficient web applications with modern technologies, while continuously learning and exploring new tools to enhance my skills

EDUCATION

- Bachelor of Computer Applications (BCA) – Amity University Mumbai (2023 – 2026) - CGPA: 8.11 (Ongoing)

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML/CSS, Express.js,

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS (Responsive Design), UI Libraries: Aceternity UI , ShadCN UI , Magic UI

Backend: Express.js, RESTful APIs, Sql , PostgreSQL, Websockets

Cloud & DevOps: AWS EC2

Tools: Git, GitHub, VS Code, Postman

WORK EXPERIENCE

- **Internship | Qspiders | (ongoing)** - Undergoing professional training in Python full-stack and SQL, web technologies through a placement-driven program in collaboration with my college.

PROJECTS

Cash-app | Nextjs , Express.js | Completed Link:- <https://cash-app-virid.vercel.app/>

A full-stack payment app built with Next.js and Express.js where users can sign in, transfer money via phone number, and add funds directly from their bank account.

Chats's | Next.js, Websockets, Shadcn UI | Completed Link: <https://chat-app-ruddy-one-92.vercel.app/>

- Let's you chat to anyone, anytime, anywhere. (anonymously)

Canvix| | Completed Link:- <https://canvix-draw.vercel.app/>

- A collaborative drawing app built on top of tldraw's official React component, leveraging its out-of-the-box canvas, shapes, and tools for a smooth drawing experience.

Currency Converter | Completed Link:- <https://github.com/soumya-singh18/currency-converter.git>

- Real-time currency converter built with HTML, CSS, and JavaScript using a live exchange rate API.

Dex | Completed Link:- <https://github.com/soumya-singh18/dex.git>

- A minimal backend service built with two POST routes — /buy-asset and /sell-asset — handling basic asset trading operations.

Frontend Landing Page Clones | Html, Css, React, Next.js, Tailwind CSS, JavaScript

- Netflix Clone: :- <https://github.com/soumya-singh18/fe-netflix.git>
- BetterStack Clone:- <https://fe-betterstack.vercel.app/>

CERTIFICATIONS & LEARNING

- **Full-Stack Developer Course** – Harkirat Singh (100xDevs.com) — Ongoing

EXTRACURRICULAR

- Currently learning Linux and Ubuntu to get into cybersecurity, while also picking up some DevOps knowledge to understand how real-world systems work.
