Objective

I am a passionate full-stack developer dedicated to building clean, efficient web applications. With a strong foundation in web development, I am constantly learning new technologies to enhance my skill set and contribute effectively to projects.

Education

- Bachelor of Computer Applications (BCA) – Amity University Mumbai (2023 – 2026) - CGPA: 8.11 (Ongoing)

Technical Skills

- **Languages:** Python, JavaScript, HTML, CSS, Express.js, Node.js
- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Aceternity UI, ShadCN UI, Magic UI
- **Backend:** Express.js, RESTful APIs, SQL, PostgreSQL, Websockets
- **Cloud & DevOps:** AWS EC2
- **Tools:** Git, GitHub, VS Code, Postman

Work Experience

- **Internship | Qspiders | (Ongoing)** - Gaining professional experience in full-stack development, SQL, and modern web development technologies.

Projects

- **Cash-app:** <https://cash-app-virid.vercel.app/> - A full-stack payment application supporting phone-based transfers and deposits.
- **Chats:** <https://chats-app.vercel.app/> - An anonymous chat application built with Next.js, Websockets, and Shaden UI.
- **Canvix:** <https://canvix-draw.vercel.app/> - A collaborative drawing application built using tldraw.
- **Currency Converter:** <https://to-convert.netlify.app/> - A live exchange rate converter built with JavaScript.
- **Dex:** <https://github.com/soumya-singh18/dex.git> - A backend service providing asset REST API endpoints.
- **Landing Page Clones:-** Clones of popular landing pages.
Netflix (<https://github.com/soumya-singh18/fe-netflix.git>)
BetterStack (<https://fe-betterstack.vercel.app/>)

Certifications

- Full-Stack Developer Course – Harkirat Singh (100xDevs.com) – Ongoing

Extracurricular

- Currently learning Linux and Ubuntu to get into cybersecurity, while also picking up some DevOps knowledge to understand how real-world systems work.
